Revised:

NORTH METRO FLEX ACADEMY POLICY No. 8.4.1

WELLNESS

I. PURPOSE

The purpose of this policy is to assure a school environment that promotes and protects students' health, well-being, and ability to learn by supporting healthy eating and physical activity.

II. GENERAL STATEMENT OF POLICY

- A. The school board recognizes that nutrition education and physical education are essential components of the educational process and that good health fosters student attendance and education.
- B. The school environment should promote and protect students' health, well-being, and ability to learn by encouraging healthy eating and physical activity.
- C. The school district encourages the involvement of students, parents, teachers, food service staff, and other interested persons in implementing, monitoring, and reviewing school nutrition and physical activity policies.
- D. Children need access to healthy foods and opportunities to be physically active in order to grow, learn, and thrive.
- E. All students will have opportunities, support, and encouragement to be physically active on a regular basis.
- F. Qualified food service personnel will provide students with access to a variety of affordable, nutritious, and appealing foods that meet the health and nutrition needs of students; try to accommodate the religious, ethnic, and cultural diversity of the student body in meal planning; and will provide clean, safe, and pleasant settings and adequate time for students to eat.

III. GUIDELINES

- A. Foods and Beverages
 - 1. All foods and beverages made available on campus will be consistent with the current USDA Dietary Guidelines for Americans.

=====

2. Food service personnel will take every measure to ensure that student access to foods and beverages meet or exceed all federal, state, and local laws and guidelines.
3. Food service personnel shall adhere to all federal, state, and local food safety and security guidelines.
4. The school will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price school meals.
5. The school will provide students access to hand washing or hand sanitizing before they eat meals or snacks and students will be strongly encouraged to use such facilities.
6. The school will make every effort to provide students with sufficient time to eat after sitting down for school meals and will schedule meal periods at appropriate times during the school day.
7. The school will discourage tutoring, club, or organizational meetings or activities during mealtimes, unless students may eat during such activities.

Guidelines

1. Foods and beverages offered over the course of a school week should be nutrient-dense, including whole grain products and fiber-rich fruits and vegetables to provide students a variety of choices to maintain a balanced diet.
2. Foods and beverages available during the school day should include a variety of healthy choices that are of excellent quality, appealing to students, and served at the proper temperature.
3. Foods and beverages available during the school day should minimize use of trans and saturated fats, sodium and sugar as defined by the Dietary Guidelines for Americans.
4. North Metro Flex Academy will encourage healthy choices for snacks in the classroom, on field trips, and at school events.
5. Classroom celebrations should encourage healthy choices and portion control.

B. School Food Service Program/Personnel

1. The school district will provide healthy and safe school meal programs that strictly comply with all federal, state, and local statutes and regulations.
2. The school district shall designate a food service manager to be responsible for the school district's food service program, whose duties shall include the creation of nutrition guidelines and procedures for the selection of foods and beverages made available on campus to ensure food and beverage choices are consistent with current USDA Dietary Guidelines for Americans.
3. As part of the school's responsibility to operate a food service program, the school will provide continuing professional development for all food service personnel in schools.

C. Nutrition Education and Promotion

1. The school will encourage and support healthy eating by students and engage in nutrition promotion that is:
 - a. offered as part of a comprehensive program designed to provide students with the knowledge and skills necessary to promote and protect their health;
 - b. part of health education classes as well as classroom instruction in subjects such as math, science, language arts, social sciences, and elective subjects, where appropriate; and
 - c. enjoyable, developmentally appropriate, culturally relevant, and includes participatory activities, such as contests, promotions, taste testing, and field trips.
2. The school will encourage all students to make healthy selections of foods and beverages.
3. Staff will be encouraged to limit the use of foods or beverages as rewards for academic performance or good behavior.

Guidelines

1. School programs should ensure that students receive nutrition education that provides the knowledge they need to adopt healthy lifestyles. Nutrition education should be well-integrated within a comprehensive

school health education program and should include instruction that helps students learn more about the importance of various food groups; caloric, sugar and fat intake; healthy cooking methods; the role of diet in preventing health problems; the recognition of the role media play in marketing and advertising foods and beverages; and the relationship of a balanced diet and regular exercise to a healthy lifestyle.

2. Nutrition concepts should be reinforced by all school personnel. Nutrition education should include reinforcement of the importance of physical activity and the health risks associated with a sedentary lifestyle.
3. North Metro Flex Academy should provide educational information and encourage healthy eating and physical activity for families, both within the home and outside the home. Family members should be engaged as a critical part of the team responsible for teaching children about health and nutrition.

D. Physical Activity

1. Students need opportunities for physical activity and to fully embrace regular physical activity as a personal behavior. Toward that end, health education will reinforce the knowledge and self-management skills needed to maintain a healthy lifestyle and reduce sedentary activities such as watching television;
2. Opportunities for physical activity will be incorporated into other subject lessons, where appropriate; and
3. Classroom teachers will provide short physical activity breaks between lessons or classes, as appropriate.

Guidelines

1. Students will receive regular, age- appropriate physical education.
2. Physical education should be designed to build interest and proficiency in the skills, knowledge and attitudes essential to a lifelong physically active lifestyle. It should include providing information, fostering a positive atmosphere, encouraging self-discipline, developing motor skills, and promoting activities that can be carried out over the course of students' lives.
3. The physical education curriculum should align with the health education curriculum.

4. Physical education should provide safe and satisfying physical activity for all students, including those with special needs.
5. The school schedule should provide daily recess that encourages physical activity.
6. The school should provide information to parents to help them provide and incorporate physical activity and healthy eating into their children's lives.

E. Communications with Parents

1. The school recognizes that parents and guardians have a primary and fundamental role in promoting and protecting their children's health and well-being.
2. The school will support parents' efforts to provide a healthy diet and daily physical activity for their children.
3. The school encourages parents to pack healthy lunches and snacks and refrain from including beverages and foods without nutritional value.
4. The school will provide information about physical education and other school-based physical activity opportunities and will support parents' efforts to provide their children with opportunities to be physically active outside of school.
5. The school newsletter and school website may be used to communicate to parents and guardians about the school's Food and Beverage Guidelines, Nutrition Education Guidelines, and Physical Education and Activity Guidelines.

IV. IMPLEMENTATION AND MONITORING

- A. After approval by the school board, the wellness policy will be implemented by the school.
- B. School food service staff, at the school or district level, will ensure compliance within the school's food service areas and will report to the food service program manager and the business manager, as appropriate.
- C. The school's food service program manager will provide an annual report setting forth the nutrition guidelines and procedures for selection of all foods made available on campus.

D. The Principal or their designee will ensure compliance with the wellness policy.
